MAINTENANCE RECOMMENDATIONS

- Clean the table and all accessories after each service using an appropriate cleaning solution or sanitizer.
- With intensive, high-volume use, the wheels may wear down over time. It is recommended to replace the table's wheels every few years, or sooner if you notice signs of wear. Regular inspections and maintenance will help extend their lifespan.
- Heavy use may also cause the countertop surface to wear or become damaged over time. Do not service clients on a cracked, chipped, or peeling countertop, as this may cause injury. If the countertop shows signs of deterioration, please contact Customer Service to arrange repair or replacement.
