MAINTENANCE RECOMMENDATIONS

- Clean the table and all accessories after each service using an appropriate cleaning solution or sanitizer.
- With intensive, high-volume use, some components —such as drawer hardware and rubber feet— may wear down over time. Perform regular inspections of the table and its components to detect early signs of wear, and replace parts as needed. Routine maintenance will help extend the product’s lifespan.
- Heavy use may also cause the countertop surface to wear or become damaged over time. Do not service clients on a cracked, chipped, or peeling countertop, as this may cause injury. If the countertop shows signs of deterioration, please contact Customer Service to arrange repair or replacement.
